f. Career Trainee Activity:

(1) The Office of Training and Education lost two Career Trainees (CTs) during the last week -- one permanently and one temporarily. The permanent departure was that of an intended Operations Officer (April 1984 class) who realized early that he had chosen the wrong career; this resignation was amicable. The temporary departure is the result of emergency gall bladder surgery on 5 May. It will not be a problem to reschedule this student's training.

(2) An Extended Interim DO trainee from the October 1983 class will be advised within the next week that he must leave the Program. Despite considerable effort on the part of the two DO area divisions, it has proved impossible to keep this trainee afloat professionally.

(3) The first experimental running of the Directorate of Administration exercise in the Career Trainee Development Course was held on 4 May, [redacted]

j. [REDACTED], a DIA member of the Consolidated SAFE Project Office's System Development Division, has been submitted for consideration as a nominee for the outstanding handicapped federal employee for 1984 within DIA. [REDACTED] is blind in both eyes and joined the SAFE Project last year. His blindness has not prevented him in any way from performing in an outstanding manner.

k. Prioritization of the installation of SAFE terminals in the Directorate of Intelligence for the remainder of FY 84 has been completed. The Office of Communications is currently completing the backlog of terminal installations in Headquarters. An estimated 60 terminals are planned for installation by 15 June. The continued installation rate of 25 terminals per month for the remainder of FY 84 looks good.
